

July 2018

Jack Callaway's A5M "Claude"

We had a great meeting on July 1. Dylan Ferguson was invited to the meeting by Rick and Crystena . He is on active duty at Ft. Bliss. His interest is mostly helicopters, but he is moving toward aircraft. Welcome Dylan.

There were 31 members, family and guest at the meeting. All in all, a very nice turn-out. Only two or three local members that have paid their dues were not in attendance.

The membership was asked to support our Club Display at the Nationals in Phoenix and the response was great. Jack Callaway did an outstanding job on the display and on the ground- work needed to make an attractive and interesting effort. Well done all. Thank you, Jack.

Thanks to Steve Herren and Kevin Malloy for the picture provided this month for this issue of the GLUE.

A short business meeting was held and Jack Callaway reported on his availability in July to transport the several cases of models to Phoenix for those that will not attend. John Estes discussed the days that are available for the Bassett Place display and show to be held later in the Fall. John will have more on that event as it gets closer to the dates.

There were many outstanding models on display. Some were repeats being taken or sent to Phoenix and some were new efforts by the modelers. It was difficult to pick an order to show the work in this issue.

Jim Davis's T-28

David Torres's DR-I

Michael Kennedy's F8F

Richard Macias's 9-38

We will support two Trophy packages for the Nationals in Phoenix. I will not ask for anything in particular just where ever they are needed.

On the Tables

As mention there were a number of new efforts by the membership. Also, some models that will be in the club display at Phoenix were brought to show. The display table was set up and a number of the models were displayed as they might be at the Nationals. In no particular order, I will list the new items and then will list what was brought as the best I can.
