Part of the folks that attended the meeting

Our February meeting was another very successful event. Almost forty members, guest and family attended. We also had the largest selection of models on the tables in quite some time. Enrique Ito attended for the first time. Welcome to Enrique.

Dues are due and still only \$15.00 per year.

Tony Barnard;sRevel 11/2th scale VW Rabbit

The chassis is from a Bernetta Hot Rod kit and painted with Testor's Primer. P-40 Shark mouth decal was donated by Fabian Nevarez. The Motor is from Top Fuel and he used Dash 9's right hand drive unit.

Tony;s1960 Corvette in 1/25<sup>th</sup> scale.

Tony used a resin chassis to enable the Big Tire Car. He added an after-market shift stick and Racing decals. Built to resemble a NHRA Super Stocker.

All of last month unidentified models were the work of Bruce Gross from Las Cruces, NM. Bruce happened to be a student at the school where I taught. DUH on me. A longtime friend and a customer when I worked at Toy's by Roy in Bassett Center in the 60's 70's.

Another view of the meeting.

Joe Martinez's Stug III

## David Torres's Kawasaki Ki 45 Kai Toryu info

This is another kit that I purchased at a second-hand store while in Japan. The decals disintegrated upon application, but Fabian Nevarez provided some spares to enable me to finish the kit I painted the model with Vallejo Acrylics and used Tamiya panel liner. The Chipping effect was done by masking, sponge work and by brush.
