

December 2021

Jerry Richardson's F-4D

We had a very good meeting this month. 23 members attended the meeting.

The current officers were re-elected and will serve another year which should be about the twenty third year of their term in office.

Meeting dates for 2022 were given to and accepted by the membership. The church also received the list for their approval and inclusion on the church calendar.

The membership agreed to purchase shoes for the children at the TLC Center. However, the group providing the shoes informed John Estes that they had met their needs this year and would not need our help. Thanks to all who offered to give extra to assist with program.

Another view of Jerry's F-4D

Our January meeting will feature cake and ice cream to celebrate the New Year.

Lisa and Jack Callaway will do the honors again and a special thanks to them for their generosity.

Several members paid their dues for 2022. We had generous donations from two members that will pay the rent for about one-fourth of the modeling year. Several others paid more than the required fee which will help with our expenses for the year.

Conrad Ottenhoff and Bernie McCune drive fifty miles each way to attend our meetings. They reported about their activities in the Las Cruces, New Mexico area. They are displaying models at the airport for the monthly fly-in held by the EAA. Special thanks to Conrad and Bernie for promoting our group.

Notes on Jerry Richardson's F-4D.

Jerry is a member of our group but lives in Amarillo. His Jerry's latest completion is the Monogram 1/48 F-4C/D Phantom, modeled as an F-4D of the 480th TFS, 366th TFW Da Nang, 1968. Jerry used Aires exhaust nozzles and AeroMaster decals, otherwise it was done OOB.

Thanks to Michael Kennedy for the photos for this newsletter. He also sent me several pictures from earlier this year to use if I choose to do so.

Justine Segovia's Soviet Tank

Justine gave no information about this but it looks like he spent a great deal of time and effort to produce it.

The following two models shown by Richard are Revell 1/72nd scale kits.

Ricardo Macias's Revell EF-111A WIP

**Our next meeting will be on
January 2 at 7000 Edgemere at 2:00 PM.**

Richard Macias's SR-71 with D-21 Drone WIP

Next, Hector used the Revell 1/25th scale kit to build this model. He also referenced the Del Rey kit.

Hector Gonzalez's 56 Chevy

Another view of the 56 Chevy by Hector.

Here, Arthur used the Revell 1/24th scale kit to build the Porsche Junior 108 tractor.

Arthur Berdick's Porsche Junior 108 Tractor

He used the ICM kit to produce the 1/35th scale Model T Ambulance of the French Army, circa 1918.

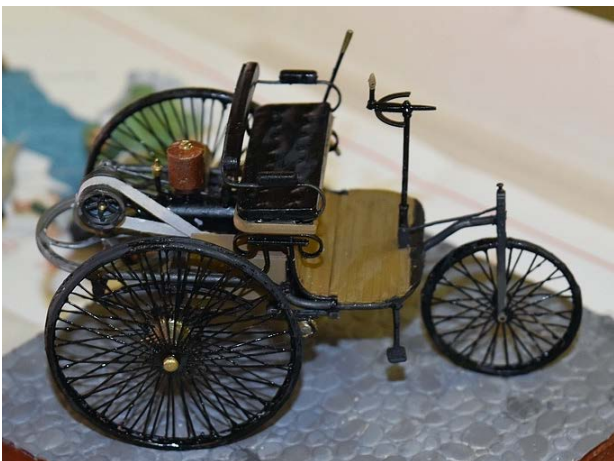

Arthur Berdick's 1917 Ambulance

For the M1078 LMTV, Arthur used the Trumpeter 1/35th scale kit.
