

May 2019

Jack Callaway's F4D Skyray

We had 30 members and guests at the May meeting. Bea Herren, Steve's wife attended the meeting. She is the official chauffeur of the family. Fred Gonzalez, a longtime member returned and said that he is back to building models. Debbie Aufill and Conrad Ottenhoff from Las Cruces NM attended again. Welcome to all.

Michael Garcia had prepared a bag of modeling goodies for the three new Junior modelers. Michael also gave them some surplus models from his stash. There were some armor models in the one true scale presented to them from the club models. Thanks for your generosity.

Phoenix and River Villa brought some cinnamon rolls for the members to show their appreciation for past favors granted. Thanks, guys.

Our next meeting is June 2, 7000 Edgemere at 2:00.

Jim Davis's A5M Claude

John Estes reported on a couple of club projects and offered IPMS/USA membership forms for any that wanted to renew their National membership.

A reminder, you may buy color prints of your photos that appear in the GLUE. These prints are 8 by 11. You do not have to purchase these unless you wish to do so. The money you pay goes into the club funds.

Arthur Berdick's Luftwaffe Check Point

Dixi Fischer's Hedgehog Nest

Justin Segovia's Crusader Tank

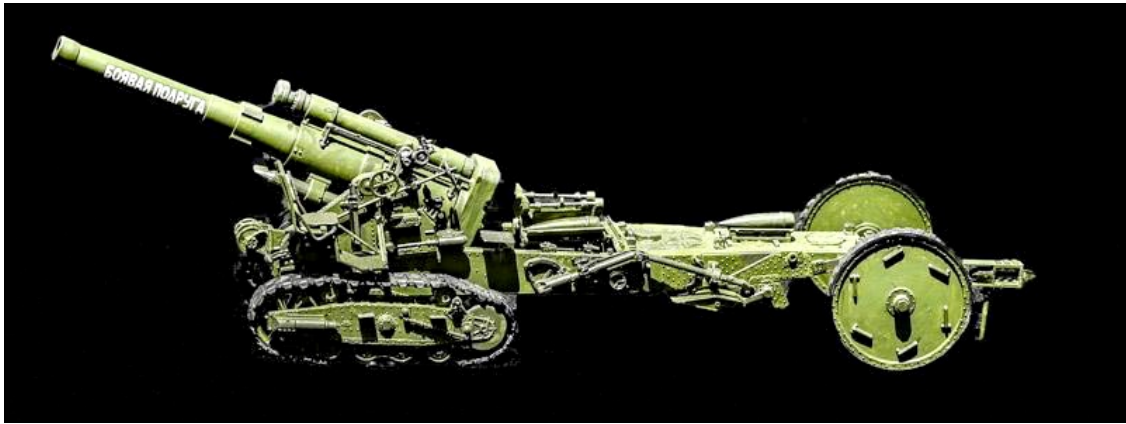

Vincien Kennedy's 747

Vincien Kennedy, the grandson of Michal Kennedy brought a model to show. As he is only 5, that makes him a very junior modeler.

Steve Herren's San Mateo Spanish Galleon

Arthur Berdick's Soviet 203mm Howitzer

Justin Segovia's Crusader Mk II

Michael Garcia had two new ships to show. In the box, he had the CB-1 USS Alaska from Hobby Boss and the battleship HMS Warspite from Academy, both in 1/350th scale.

While discussing the merits of one of the models on the tables, one of our member's pointed out a major mistake on his model (his words). This particular modeler is an excellent modeler with many very nice models to his credit. It is refreshing to find a competent modeler that points out errors of construction and takes the responsibility for his error. By the way, he had to point the error out for all involved in the discussion.

Richard Macias's MiG 29

Arthur Berdick's M1046 HumVee with Tow missile

Phoenix Villa had an Academy F6F-5 Hellcat in 1/72nd scale and Bandai Gundam Barbadtos figure in 1/100th scale to show. However, they were not photographed.

There were a number of models on the tables, some completed and some still in the box to show.

Carlos Delgado's He 177

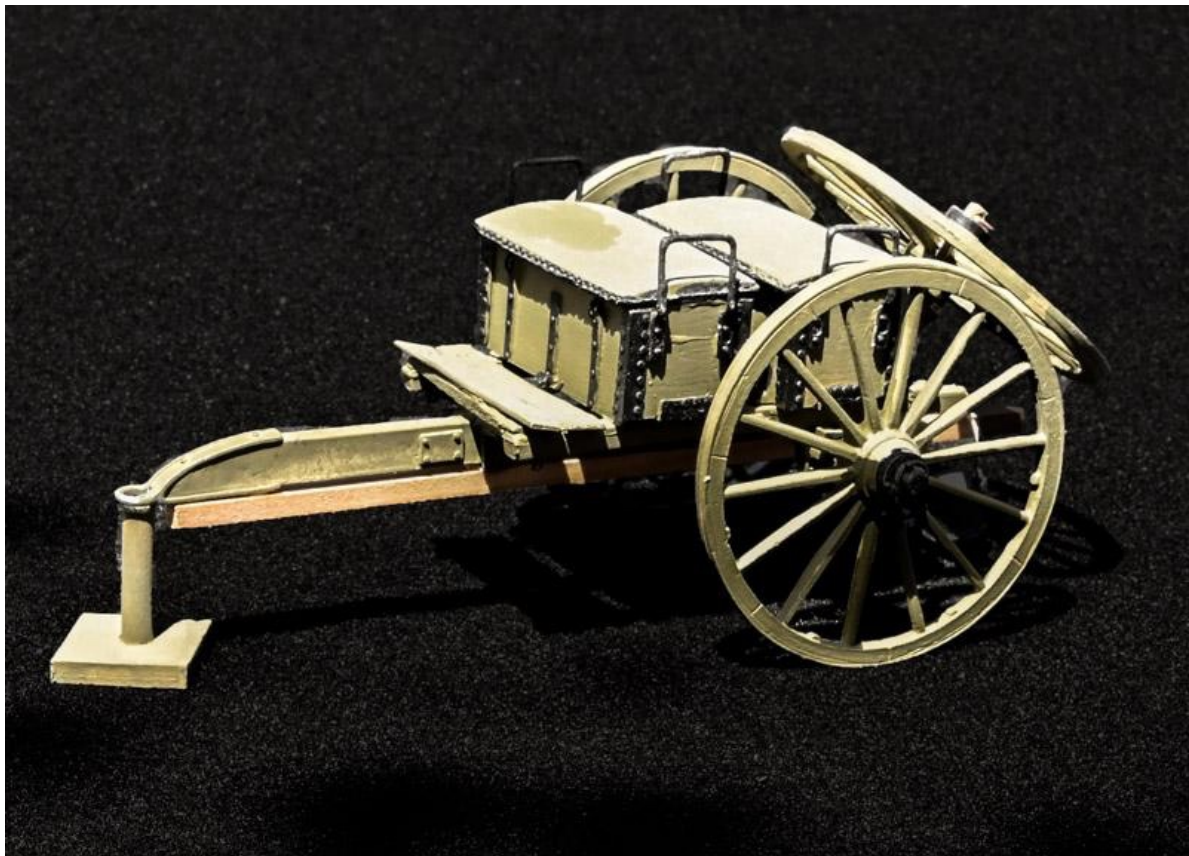

Carlos Delgado's Horton 129

Art Berdick's Dodge Staff Car

Art Berdick's M728 Combat Engineers Vehicle

Steve Herren's Cassion Ammunition Carrier

Steve Herren's Gatling Gun

Steve Herren's Civil War Ambulance

ON THE TABLES AND PHOTOGRAPHED

Arthur Berdick had four 1/35th scale military models to show. He had A Dodge Staff Car WC56 built from the Italeri kit; an M728 Combat Engineers Vehicle using the AFV kit; An M1046 Humvee with TOW missile by Tamiya and a Soviet B-4 M1931 203mm Howitzer also from AFV.

Jack Callaway had a Tamiya Douglas F4D in 1/48th scale.

Jim Davis brought a Hobby Boss 1/72nd scale Mitsubishi A5M Claude. The W on the fin indicates assignment to the carrier Soryu. The appearance of the A5M in 1937 marked the emergence of the Imperial Japanese Navy as a modern force. The Claude only participated in one battle during World War II but assured its place in history in action in China.

Carlos Delgado had two models to show. His He 177 was built from the Revell kit and was in 1/72nd scale. His other model was a Horton 129 in 1/48th scale and was built from the Dragon kit.

Dixi Fischer had as a Work in Progress a 1/12th scale "Hedgehog Nest." The room was made from wood and all except the chair was handcrafted.

Steve Herren brought four items to show. The ship was the Spanish Galleon "San Mateo." The other three were built from Guns of History kits and included a US Civil War Gatling Gun, an ammunition caisson and an ambulance, all in 1/16th scale.

Five-year-old Vincien Kennedy brought a wooden 747 of unknown scale and hand painted.

Richard Macias bought a MiG 9 built from the Tamiya kit in 1/72nd scale.

Justin Segovia had two Crusader tanks, one a Mark II, the other a Mark III in 1/72nd scale.
