

**April 2025**

No fooling, our April meeting was very successful with thirty members, family and guest in attendance. Howard Penley, a former member came to the meeting. It was good to see him. Clif Bailey drove in to the meeting from Alpine and brought three models to show. Several of our regular members were unable to attend and were missed. We hope to see them at the May meeting.

Once again, there was lots of discussion and interaction among those that attended the meeting until I interrupted with a discussion of a Make and Take Program. I still have not heard the National Office after at least six weeks as to whether they are still supporting the Build and Take Program. We will have the event without their support. The National group of course, has asked us to support them by buying an ad in a Special publication and to purchase a trophy package for the 2025 National Convention.

Jim Coatney, the Region 10 IPMS/USA Regional Coordinator wrote to me asking if IPMS/El Paso would like to move from Region 6 to Region 10 (New Mexico, Arizona, Colorado and Utah.) Here is his inquiry:

*Hi John: I'm the IPMS/USA Regional coordinator for Region 10 (New Mexico, Colorado, Utah, Arizona). Looking at the region maps recently, I was wondering if your club would have any interest in moving to R10? El Paso is closer to R10 clubs and shares the same time zone with the clubs in R10. I thought it might make sense to make that change.*

*Let me know if this sounds interesting to you and your membership. If so we can get input from your current RC and the DLC. (Cont.)*

*You're the first person I've reached out to; just looking to see if there is any interest from your perspective. Reach out with any questions,*

*Jim Coatney  
IPMS/USA Region 10 Coordinator  
Albuquerque Scale Modelers  
608-553-1678*

This only concerns those that are current members of IPMS/USA.

Joe Martinez will co-ordinate the Make and Take Program. The membership voted to support the program financially. Several members donated funds at the April meeting.
